CAD2VR®

Windows

HTC VIVE /
VIVE Pro

Oculus Rift S

Windows
Mixed Reality

View CAD models easily in Virtual Reality

Interaction

Interaction with all individual components of the model is child's play

Excitement

Excite your customers with inspiring presentations of your products advantages

Optimization

Product optimization on a virtual prototype in the development phase

REVIS3D

Easily imported.

CAD2VR®

With our CAD2VR® software you can easily load and view CAD models in Virtual Reality. Utilize 3D models straight out of construction, and view them at any time in their original size.

Windows   **HTC VIVE / VIVE Pro**   **Oculus Rift S**   **Windows Mixed Reality**

- Examine ergonomics, design and completeness.
- Increase product quality and save costs through error detection before production.
- Discuss project status directly on the product - in a team and with the customer.
- Evaluate space requirements and serviceability.
- Optimal for briefings, assembly instructions, training and virtual tours.
- Effortlessly and mobile used - ideal to support your sales.
